

August 2018

Androgenetic Alopecia (AGA) Program Update

- We are finalizing last steps to initiate our human studies with a Phase 1 safety clinical trial
- We expect to start dosing subjects this fall

Alzheimer's Disease (AD) Program Update

- We conducted the Investigator Meeting to initiate our upcoming 625-patient Phase 3 clinical trial
- Previously, we completed a 29-patient Phase 1 clinical trial, a 310-patient Phase 2 clinical trial, and a 49-patient Phase 2 biopsy clinical trial

Tendinopathy (TEN) Program Update

- Our tendon repair work in animals was accepted as an oral presentation at the American College of Rheumatology (ACR) Annual Meeting
- Previously, we completed a 24-patient Phase 1 safety clinical trial and a 223-patient skin irritation and sensitization study
